ID's that are not returned to the RDM Airport as required are subject to a \$250.00 penalty, that may be assessed to either the individual the ID is issued to, or the company sponsoring the ID. This penalty is assessed at the discretion of the RDM Airport Security Coordinator.

Badges that are lost, stolen, or otherwise unaccounted for must be *immediately* reported by calling 541-504-3083 (no text messages).

Access to the Secured and/or Sterile Area is granted after undergoing a Federal Bureau of Investigation (FBI) fingerprint based Criminal History Records Check (CHRC) with no disqualifying offenses and the Transportation Security Administration's (TSA) Security Threat Analysis (STA) has deemed a favorable response. If favorable results are received, the applicant will be scheduled to attend a security training class to learn the responsibilities regarding access privileges to restricted areas of the Airport.

If a Criminal History Records Check (CHRC) performed by RDM results in disqualifying convictions, the applicant will be denied a security access ID. A copy of the CHRC will be provided if requested by the applicant in writing within 30 days for corrective purposes. If you have questions about the results of this CHRC, please contact Jayde Davis, RDM Airport Security Coordinator at 541-504-3090 or mail to Redmond Municipal Airport 2522 SE Jessie Butler Circle, #17, Redmond, OR 97756, attention Jayde Davis.

Authority: 6 U.S.C. § 1140, 46 U.S.C. § 70105; 49 U.S.C. §§ 106, 114, 5103a, 40103(b)(3), 40113, 44903, 44935-44936, 44939, and 46105; the Implementing Recommendations of the 9/11 Commission Act of 2007, § 1520 (121 Stat. 444, Public Law 110-53, August 3, 2007); FAA Reauthorization Act of 2018, §1934(c) (132 Stat. 3186, Public Law 115-254, Oct 5, 2018), and Executive Order 9397 (November 22, 1943), as amended.

Purpose: The Department of Homeland Security (DHS) will use the information to conduct a security threat assessment. If applicable, your fingerprints and associated information will be provided to the Federal Bureau of Investigation (FBI) for the purpose of comparing your fingerprints to other fingerprints in the FBI's Next Generation Identification (NGI) system or its successor systems including civil, criminal, and latent fingerprint repositories. The FBI may retain your fingerprints and associated information in NGI after the completion of this application and, while retained, your fingerprints may continue to be compared against other fingerprints submitted to or retained by NGI. DHS will also transmit your fingerprints for enrollment into US-VISIT Automated Biometrics Identification System (IDENT). DHS will also maintain a national, centralized revocation database of individuals who have had airport- or aircraft operator- issued identification media revoked for noncompliance with aviation security requirements. DHS has established a process to allow an individual whose name is mistakenly entered into the database to correct the record and have the individual's name expunged from the database. If an individual who is listed in the centralized database wishes to pursue expungement due to mistaken identity, the individual must send an email to TSA at Aviation.workers@tsa.dhs.gov.

Routine Uses: In addition to those disclosures generally permitted under 5 U.S.C. § 552a(b) of the Privacy Act, all or a portion of the records or information contained in this system may be disclosed outside DHS as a routine use pursuant to 5 U.S.C. § 552a(b)(3) including with third parties during the course of a security threat assessment, employment investigation, or adjudication of a waiver or appeal request to the extent necessary to obtain information pertinent to the assessment, investigation, or adjudication of your application or in accordance with the routine uses identified in the TSA system of records notice (SORN) DHS/TSA 002, Transportation Security Threat Assessment System. For as long as your fingerprints and associated information are retained in NGI, your information may be disclosed pursuant to your consent or without your consent as permitted by the Privacy Act of 1974 and all applicable Routine Uses as may be published at any time in the Federal Register, including the Routine Uses for the NGI system and the FBI's Blanket Routine Uses.

Disclosure: Pursuant to § 1934(c) of the FAA Reauthorization Act of 2018, TSA is required to collect your SSN on applications for Secure Identification Display Area (SIDA) credentials. For SIDA applications, failure to provide this information will result in denial of a credential. For other aviation credentials, although furnishing your SSN is voluntary, if you do not provide the information requested, DHS may be unable to complete your security threat assessment.

Additional Notices and Disclosures

Screening Notice: Any employee holding a credential (RDM issued ID) granting access to a Security Identification Display Area (SIDA) may be screened at any time while gaining access to, working in, or leaving a Security Identification Display Area (SIDA). The screening may include any and all items in that individual's possession at the time of screening.

CRD Notice: Pursuant to TSA-NA-21-01 series, RDM will utilize the Centralized Revocation Database (CRD) as applicable, to report permanently revoked RDM ID media due to an ID holder's failure to comply with security requirements. RDM will grant ID holders 7 calendar days to appeal a revocation prior to entering their information into the CRD. If the individual does not appeal the revocation of the ID within 7 business days of notification of the intent to revoke ID, or the decision to revoke is upheld following the appeal, RDM will record the revocation in the CRD utilizing the FPRD system within 3 calendar days.
