

Americans with Disabilities Act (ADA)

The City of Redmond does not discriminate against qualified individuals with disabilities on the basis of disability in the City’s services, programs and services available to every Redmond citizen. Reference documents on this site include notices, newsletters, grievance procedures, curb ramp request forms, request for accommodations and a general informational brochure (click below). The Americans with Disabilities Act (ADA) provides guidelines to comply with accessible program, service and building construction, but we always need to hear from our citizens to direct resources where they are most needed. Please contact the ADA coordinator at (541)504-3032 if you have any questions, concerns or suggestions.

ADA / Special needs at Redmond Municipal Airport

For wheelchair assistance or passengers travelling that have special needs please pre-arrange these services directly with the air carrier by calling their reservations phone number or visiting their website. The air carriers contact information who service Roberts Field are listed on our home page and under the Airport tab under Airlines and Destinations (www.flyrdm.com).

Terminal Services

Only ADA animals and Police dogs are allowed on a leash in the Airport. All other animals (including comfort animals) must be in a cage in all areas of the Airport. Click **HERE** for the Airport code 2.560 – Airport Terminal Animal Provisions.
