

Checking In With **or** Without Bags

Alaska Air announces that effective October 30, 2013, the cut-off time for passengers checking in with or without bags at Redmond Municipal Airport, Redmond Oregon, is changing to 40 minutes.

Please note that these cut-off times will not ensure that you make it to your departure gate in time for boarding. Busy security lines and heavy passenger traffic may require extra time. Passengers must be at their assigned gate and through security at least 30 minutes prior to scheduled departure.

To ensure they can accommodate your checked bag, passengers will not be allowed to check bags for their flights after these cut-off times:

International Flights ¹	Domestic Flights ²
60 minutes	40 minutes

¹ Passengers traveling from Guadalajara have a **90-minute** baggage cut-off time.

² The following cities have a **45 minute** baggage cut-off time: Atlanta, Denver, Las Vegas, Newark, and Philadelphia.

For more information please view "Airport Guides" for recommended arrival times at other departure airports at www.alaskaair.com/airport/AirportGuides.aspx
