What is a Master Plan?

- Community's Vision for Airport
 - Advisory Committee
 - City Coordination
 - Public Open Houses
- Focus on Facilities
- Done Once a Decade
 - Takes 18 months to Complete
- Primarily Funded by FAA
 - Positions Improvement Projects for Funding

Master Plan Focus Areas

FORECASTS & AIR SERVICE

AIRFIELD GEOMETRY

TERMINAL AREAS

REVENUE DEVELOPMENT

STAKEHOLDERS

IMPLEMENTATION

A Master Plan IS

- A 20-year Strategic Development Vision
- Open-ended to allow for uncertainties
- Supported by fact and logic
- An assessment of:
 - FAA Design Standard Compliance
 - Airfield Layout (Pavements, NAVAIDs)
 - Passenger Terminal Building
 - Needs of Airlines, General Aviation, Forest Service, Military
 - Development of Aviation and Non-aviation Uses

A Master Plan is NOT

- A business plan or a marketing plan
- A regulatory document
 - Guided by existing policy
 - Informs future policy – does not set it
- Rigid and inflexible
- An FAA development mandate
 - ...or a guarantee of FAA funding
- A wish list

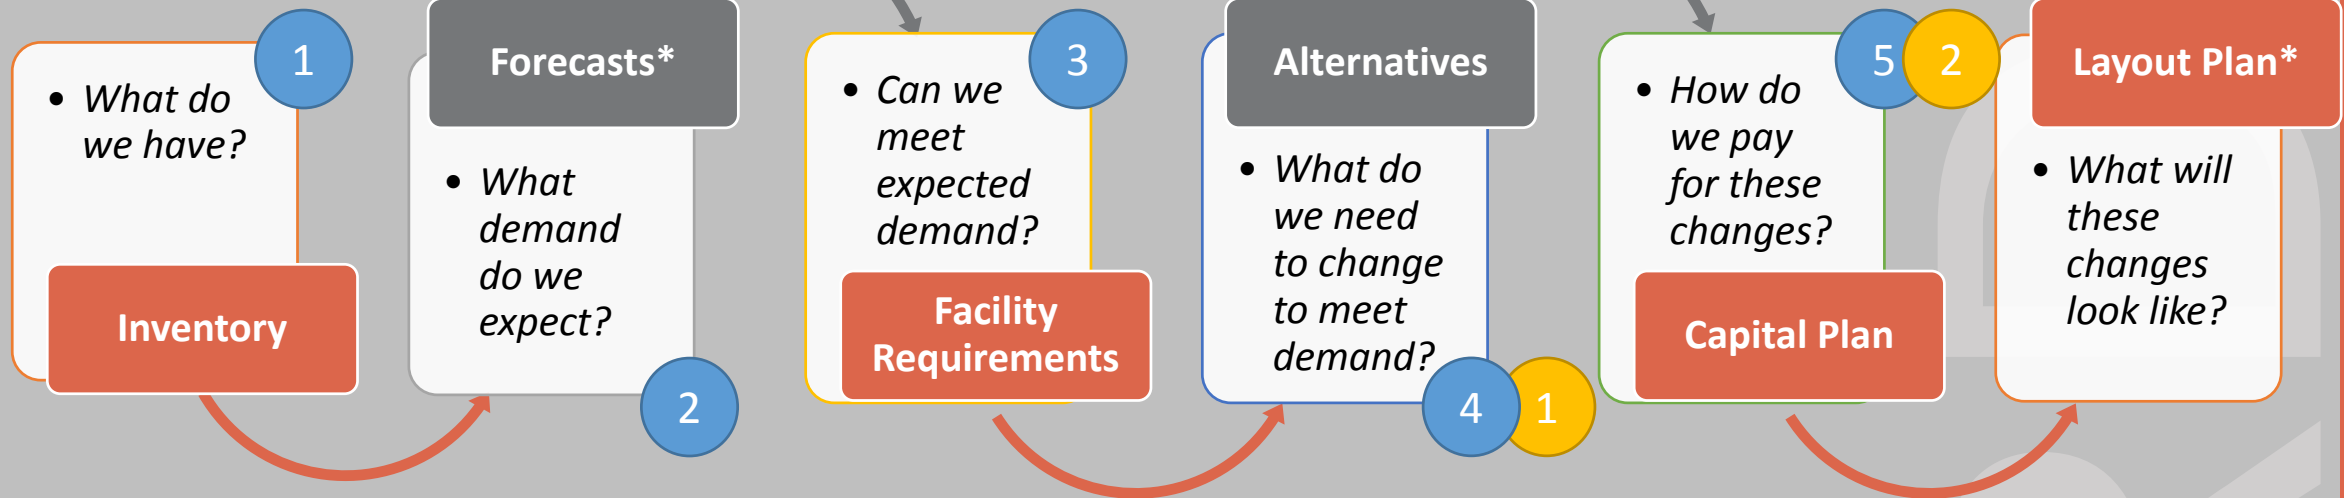

Master Plan Outline

Winter 2016/2017

Spring/Summer 2017

Fall 2017

Winter 2017

Stakeholder Coordination & Public Outreach
